

Product description

Zettex Spraybond X90 HT is an universal excellent hybride polymer based adhesive without isocyanate and plasticiser resistant for bonding all kind of roofing and flooring substrates. Spraybond X90 HT can be applied in a one way stick and exhibits a high degree of strenght.

Material

Hybrid Polymers

Product properties

- One component
- Solvent free
- Extremely powerful
- Fast drying
- Plasticiser resistant
- For universal use
- Ready to use
- One side applying
- Non flammable
- Economical in use
- Permanent flexible bond
- Low foaming
- High temperature resistance
- No plasticizer migration
- Unilaterally applied

Areas of application

- For the fast and effective adhesion of all types of roof and floor surfaces, such as; PVC, EPDM, TPO, Bitume, Linoleum, Marmoleum and PU based surfaces.

Applications

- Remove any moisture and grease from the surface being glued. Gently spray the contact adhesive on to surface being glued. The ideal distance between the surface and the spray gun is 30 cm. Try to apply the glue in a single layer. Bring the surfaces together after 2-4 minutes and press or roller firmly. Check thoroughly to see whether there is sufficient contact between the glue layers if the surface is porous. Apply an extra layer, if necessary.

Packaging

- Pressurised cylinder 23kg

Colour

- Brown, others on request

Safety recommendations

- Make sure you have read our MSDS (Material Safety Data Sheet) before using this product.
